Leadership Stoughton

...a comprehensive
training program
for leaders

Stoughton
Chamber of Commerce

2004/2005

Our Mission

Leadership Stoughton was created by the Stoughton Chamber of Commerce to promote and enhance community leadership and involvement. This is accomplished by providing quality programs that develop leadership skills and create community awareness.

Now in its fourth year, this program is developing well-informed and highly motivated leaders who are qualified to assume present and future leadership roles in the Stoughton area.

Through a series of seven-hour monthly training sessions, Leadership Stoughton emphasizes leadership concepts and community needs. Programs focus on Stoughton's heritage and culture, the local economy, legal services, government, education and health care.

Each session features local leaders and specialists in various forums - including lectures, round table discussions, question and answer sessions and tours throughout the city. A two hour professional management training session conducted by Edgewood College is part of each month's program.

Leadership Stoughton requires a one day a month commitment from September to May and a sponsorship cost of \$550 for the total program. (There is a 10 percent discount when two or more register from the same company.) In addition each participant will take part in a group project aiding a local non-profit organization.

Objectives

Leadership Stoughton is designed:

- ✓ To provide a program that develops an awareness and understanding of the resources, processes, problem and issues affecting Stoughton.
- ✓ To develop a support system among participants which will aid them in their leadership efforts as well as benefit the community.
- ✓ To promote involvement and participation of the individuals enrolled in the program in volunteer, elective and appointed positions within Stoughton.

Edgewood College's Connection:

In each session we use Edgewood College's professional teaching staff to increase each participant's analytical and decision-making abilities in the community and at work. Instructors include:

Dr. Raymond Schultz has over 30 years experience designing and implementing Educational Development and Information Development for Leadership activities and workshops. He is currently the Associate Dean for Graduate, Adult and Professional Studies at Edgewood College

Dr. Daniel Schroeder is Executive Vice President of Organization Development Consultants, Inc. (ODC). Additionally, he serves as Coordinator of the Industrial/Organizational Psychology and Corporate Professional Studies programs at Edgewood College.

Applications

Applications for Leadership Stoughton are available at the Chamber of Commerce office at 532 E. Main Street, Stoughton, WI 53589 or by calling 608-873-7912. Deadline for applications is August 31, 2005. 4
